

## DSI Dantech announces changes in top management

The Board of Directors of the Danish market leader in mechanical, cryogenic and plate freezing technology, DSI Dantech has announced that changes have been made to the top management. Lars Priess will step down from his role as CEO with immediate effect, while Henrik Ziegler and Michael Bohl will be joint CEOs for the company.

It is familiar faces of DSI Dantech, CSO Henrik Ziegler and COO Michael Bohl, who will be replacing Lars Priess in the management as CEOs. They will both continue their present role and share defined responsibilities in the new dual CEO functions.

*"We are happy that both Henrik and Michael accept the challenge. It is for sure challenging times, both for DSI Dantech and the world in general, but we are confident, that this duo is the right one to bring this fantastic company forward with new energy,"* says Klaus B. Nielsen, Chairman of the Board.

### Heading towards a successful future

Both Henrik Ziegler and Michael Bohl come with lots of experience. Henrik Ziegler has been in the business for 38 years and state that he still has a lot to give:

*"I am very humbled about the opportunity I have been given together with Michael Bohl. I am sure we together, can add value to the progress of the company and accomplish an even brighter future. I know that there will be a lot of questions from the organization, but Michael and I will listen to all concerns and suggestions for a better future."*

Michael Bohl adds:

*"DSI Dantech has some of the best products in the market and we strongly believe that we have more opportunities to improve our market position. We are adding manufacturing footprint to Aalborg, Cincinnati and eventually to Dybvad, which will ensure our capacities and strengthen our market position even further. Our best and most important capacity is however the DSI Dantech teams around the world. I couldn't agree more with Henrik regarding empowering the team further. Our collaboration, commitment and sincere common will to take DSI to the next level, is in my opinion crucial for our future joint success. I still strongly believe in DSI Dantech. And I look very much forward to the coming – challenging, very important and exciting month. Together we can make cool things done."*

In 2021, DSI Dantech acquired Belgian Cryogenic Equipment and Services NV (CES) and the Aalborg company Dantech Freezing Systems, making them the only global player to offer the food industry the full range of freezing technology and a wide range of refrigeration and heat treatment of food. The company has ambitious goals for the future, and Henrik Ziegler and Michael Bohl have been promoted to CEOs for continued growth and stability. The Board of DSI Dantech congratulates them with the new challenge.
